PROFESSIONAL SUMMARY

Information Technology student (expected graduation 2028) training in Front End Development with React through the Digital Egypt Pioneers Initiative (DEPI). Experience building React applications with Vite and Bootstrap, including leading a team project that connects a front end to a backend API using fetch. Seeking a Front End (React) internship to apply and grow my skills in a professional environment.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript

Frameworks and Libraries: React, Bootstrap

Tools: Vite, Git, GitHub

Concepts: REST API integration

PROJECTS

Shareek: Student Housing & Roommate Matching Platform DEPI Graduation Project

React, JavaScript, Bootstrap, Vite, REST API

- Led a team building a platform that helps students find apartments and compatible roommates.
- Developed the front end: lifestyle questionnaire, compatibility scores, roommate match cards, listings with filters, interactive map, connection requests, and dashboard.
- Integrated the front end with the backend API using fetch to display real listings from apartment and hotel owners.

Personal Portfolio Website React, Vite

- Built a personal portfolio website to present my projects and skills.

Restaurant Landing Page React, Vite

- Built a restaurant landing page with a clean, organized layout.

TRAINING

Digital Egypt Pioneers Initiative (DEPI): Front End Development using React Jul 2026 - Dec 2026 (in progress)

EDUCATION

B.Sc. in Information Technology Expected 2028

Faculty of Industry and Energy Technology, October Technological University

Relevant Coursework: Web Development 1 and 2, Data Structures, Databases
